PROFILE

Enthusiastic and detail-oriented Computer Science graduate software developer with a focus on web development. Experienced in crafting responsive UI and implementing web solutions using technologies such as React, Next.js, and Firebase. Seeking a challenging role to contribute my skills and creativity in a dynamic team.

WORK EXPERIENCE

Kinetic Business Intelligence

March 2022 - Now

Front-End Web Developer

- Collaborated on the development of responsive UI using technologies such as Next.js and Tailwind CSS for mostly foreign clients.
- Engaged in projects ranging from simple CRUD applications to complex endeavors like online file and workspace management.

Projects

Canvaza, location: United States

- an async video editing and sharing platform like loom a web/mobile app for file storage, sharing, creating workspaces, and connecting with other users.

EthioChicken Dashboard, location: Ethiopia

- Designed and implemented a web-based Dashboard for data-driven decision making.

KeyuGasha Insurance Reminder System,

location: Ethiopia

- an insurance reminder system that notified users when their insurance date is due and that also allowed users to register through us to registered insurance companies.
